MEASURING MASS IS MASSIVE FUN

Mrs. Shaffer's first grade class has been learning about the nature of science. In the experiment, pictured above, students are figuring out the mass of 10 beans. They did this experiment using a balance, gram cubes and plastic cups.

Meet Edgewater's New Counselor

Say Hello to Edgewater's new counselor, Mrs. Dudley. She has been a counselor for 25 years!! Even though Edgewater is a small school, it keeps her busy AND she also counsels at Toledo Technical Academy. Her favorite color is lavender. Her favorite subject is Science. She used to work at Waite High School. We both did a book report on the same book, Mr. Popper's Penguins.

Making Estimating "Bear"able

Ms. Riley's fifth grade class did an estimating activity. They knew that one container had 46 gummy bears. Based on that, they tried to figure out how many were in the larger container. Seth Bailey had the closest guess with Si'Yana Holcomb coming in second place! The second container has 97 gummy bears!

Student Survey Says……

With Halloween just around the corner, student reporters, Emmanuel Harris and Moises Guillen were sent to find out which candy treats are student favorites when it comes to trick-or-treating. Here are what some of our Edgewater students said:

Miles Stoner –Snickers

Harley Engleheart-Popcorn balls

Kaden McCalland-Twix

Leah Crowson-Twix

Seth Bailey-Hershey's

Damoney Roundtree-Twix

Mariah Clements-Twix

Looks like Twix is a winner!

The man tried to move in, but when he got there, two ghosts in the main room. One day later….

The two ghosts caused a lot of chaos and the were very tired. So, they went to bed for ten years.

The ghosts, Jake and Caleb, went looking for a new place to haunt.

The ghosts went into an abandoned house and found two aliens. The aliens were named George and Moon!

To be continued…..
